Description

I am a licensed Life & Health Insurance Agent. I have been licensed for more than 20 years. Back in 2010 I was really intrigued by the large amount of continuing education modules that were focused on our senior market. This was the beginning of my passion in helping seniors. I quickly learned that the guidelines and requirements by CMS (Center for Medicare Services) was literally a full time job in itself. I love working with seniors, whether they are our young ones or our more experienced folks. These wonderful people have such knowledge that I seem to always learn something from my clients. In helping folks who are on the verge of retirement, often times, there is a spouse who may not quite be Medicare age. This is where Individual/Family and Covered CA plans that I offer can greatly help families meet their healthcare needs. There is no cost to schedule a consultation with me. Please allow me to help you get a great plan and keep your money in your pocket.
